1. Messrs. Cline, Helms, Harvey and Dr. Scoville briefed me for 1100 meeting in McGeorge Bundy's office [redacted] (Mr. Cline accompanied to this meeting which had to be continued at 4:00 in the afternoon.) (Calendar Sheet)
2. Took single copy of readout to White House with me. At that time was still kept under White House wraps to call information to the immediate attention of the White House and get instructions.
3. Approved 4 September COMOR recommendations that in view of SAM sites on western end of island, it is particularly important next authorized mission should cover those areas of island which were not photographed because weather or range did not permit; that complex eastern end of island should be photographed again.
4. President announced presence of missile defense system in Cuba; thereafter, the Community was able to publish information on SAM sites. (Earman Report, p. 50, para. 19.)
